

Technical drawing of a road cross-section. The road width is 3.50m. The road surface has a 2% slope on both sides. The elevations are: 4.80-5.00 at the top, 0.00 at the center, -0.03 at the edges, -0.08 at the base, and -0.15 at the bottom. The base is 3m wide. The drawing is divided into three horizontal sections labeled 1, 2, and 3.

The diagram shows a cross-section of a road surface with a 2% slope. The elevation points are marked as follows: -0.07, 0.00, and +0.03. The horizontal distance between the points is 3.50. The vertical distance between the points is 0.05. The road surface is labeled with a circled 4. The subgrade is labeled with a circled 1 and a circled 3.
